Who is LIO, and how can we do what we do?

Let's face it: insurance is too complicated and slow. That's why we modernized the process with technology by leveraging decades of expertise to make the overall insurance process easier, faster, and simpler. Isn't that how insurance should be?

Experience.

LIO is a privately held company. Its majority owners, the Maguires, previously founded and grew a highly successful multi-billion dollar commercial insurance carrier that specialized in over 100+ niche markets. Our executive team averages more than 20 years of experience in claims, underwriting, service, finance, and analytics.

Technology.

Since outdated legacy systems didn't burden us, we could take advantage of the newest technologies to make insurance easier for brokers, amateur sports clients, and even ourselves. We combined our deep insurance expertise with state-of-the-art digital capabilities and analytics to provide a unique, intuitive, and pleasant buying experience.
